Curling on Natural Ice

1,5-2h long winter game with warm juices and laughs guaranteed

In the middle of the winter great fun to enjoy the possibilities of frozen lakes and play a little stone curling. This curling is almost like the real one, curling, played in the Olympics. But in this version the competition will be played with Kuru grey granite stones (something really local and something that Finland is know of, one of the hardest kind of rock there is in the world). The judge is also corruptible by a song. **February is the month when most likely there is nothing to prevent this from happening.**

You will meet your judge(s) at Hiking Travel Hit rental shop. They take part in our weekly company skill training and participate on ice safety lecture and rescue practice every winter. Know how and customer safety is a thing of heart for us.

How you need to be prepared

is with clothing according to the weather. Warm mittens and wollen hat is a must in winter. We rent winter jackets, pants, hats, gloves and boots, if necessary, and everyone will be given spikes for their shoes to prevent falling down.

You are supposed to slide the stone on the ice and get the stone to stop on the target while your team mates brush the ice to make it slippery. Some turns you can also hit the opponent's stones with your own ones and play them off the track to prevent them winning. And don't worry if every stone doesn't hit the target, they can also act as a shield.

You take turns on pushing the stones and the opponent's team is of course brushing the snow off from after the target area, hoping your stone would slide just a bit too far. After all the stones are played the judge counts the points (remember the singing part). No need to worry if your team didn't win the first round, this will be played in 3. Between the rounds you can warm up at our rental shop where we will enjoy a cup of warm juice.

To tour operators:

This can be organized on other locations than just by our rental shop. This might be considered if customers are staying on a hotel that is on a walking distance from our winter tracs on lake Näsijärvi.

With this activity is easy to combine for example a visit to our winter cafeteria. This can be done with a guide or independently. We will always tell instructions.

With an additional price we can

...organize transportation for your group (a pick up from their hotel e.g..)

...change the menu of the stop (waffles with famous Fazer chocolate and whipped cream 5€/pcs)

...rent warm winter clothes for your customers. (pants +7€, jacket +7€)
