

Hiking Travel Hit, Ky

Midnight Sun Paddling Tour

3 to 4h long Finnish midnight sun experience in beautiful lake scenery

This tour takes you to one of the public fire places by lake Näsijärvi. There we sit down to relax and enjoy the view of setting sun. You get to fry sweet crepes with the help of your guide or even take a refreshing swim in the depths of lake Näsijärvi

We recommend the tour to all skill levels. The big voyager canoes that we use on this tour lowers the barrier to participate because you don't need any former experience. They don't need an active paddler to every seat, so really easy to take children with as well.

Midnight Sun Paddling Tour

Season

June–August

Wednesdays, Fridays and Saturdays at 21:30–01:30

Group size

4–35 pax

Price

50€ for adults, 25€ for 12 years and younger

Service languages

Finnish and English

Booking by

6 pm the evening before the tour and info:
tapio.tyllila@hikingtravelhit.fi, p. +358 40 7457803
(Tapio).

How you need to be prepared

is with clothing according to the weather. Good to also have is a hat that stays on even if it's windy. We also recommend a bottle of water (you can fill yours at our shop if needed). And don't forget to take your swimming suit and towel with you.

The start and finish point is our base in Kaupinoja. Just a 20–30min walk or bus drive from the city center and you will find yourself from the middle of nature and Kauppi sports area.

The Midnight sun paddling tour takes us to Tapatora bay, to one of the public fireplaces that there is in the shore of Näsijärvi. There we sit down to relax and to enjoy the Finnish midnight sun. This place has beautiful low rocks that open towards west guaranteeing that you have the best possible view over the lake and towards the setting sun.

Our guide will prepare warm drinks (coffee, tea or hot chocolate) and help you fry crepes. If you want you can even take a night time swim in Näsijärvi.

The boats used on the tour are our big voyager canoes. The design is by our company owner Pekka Tyllilä and the first ones have been manufactured in our own factory (nowadays made in Estonia).

After the relaxed visit at Tapatora bay we paddle back to Kaupinoja and move the equipment back to its storage.

Your guide(s) are Hiking Travel Hit employees, who are certified paddling instructors, and they take part in our weekly company skill training. Know how and customer safety is a thing of heart for us

To tour operators:

The tour can be organized on other times than the given schedule. Witnessing the lake during daytime is also something to consider. Price will stay the same.

The big voyager canoes make the season longer as you splash hardly any water on you with a one bladed paddle.

Every participant can take one bag with them, about the size of a school backpack.

With an additional price

...we can organize transportation for your group (a pick up from their hotel e.g.)
...the crepes can be changed into Finnish squeaky cheese (leipäjuusto) and cloudberry jam.
