Good spirit nature tours since 1992

Hi! My name is Tuire. I'm the youngest member of our family business, Hiking Travel, Hit. We have been doing good spirit nature tours since 1992, with strong knowledge, taking our customers to beautiful lake sceneries and pure forests. We are based in Tampere, where nature is close at hand for your customers straight from the city center..

Tampere is the biggest inland city in Scandinavia, in Finland and the greatest smallest city in the world.

With us your customers can experience our main activities, like nordic ice skating, skiing, kick sledding and guided city tours. So imagine: snowy forest, clear waters frozen to skate and the only place in the world with a winter café in the middle of the frozen lake.

By choosing us, we promise to use our whole network to always find the best solution to meet your needs. If you're interested, contact us through hikingtravelhit.fi. Lets collaborate!

- Home of worlds only **Moomin museum**.

BEST PLACE

to see northern lights

Around spring and autumn equinox you can see Northern lights, no need to travel all the way to Lapland

Tampere Astronomical Society has announced that our rental shop shore is the best place to watch northern lights on land in Tampere.

Something really unique: It is the only place in world with a **winter cafeteria in the middle of the frozen lake on the ice.**

Standing on a frozen lake is an experience on it's own. Visiting a cafeteria there is unforgettable. Tampere is the only place in the world where you can do this.
